

Federal Fishery Recovery Program

The Federal Fishery Recovery Program was established to revitalize Louisiana's commercial fishing industry impacted by hurricanes Gustav and Ike.

Under this initiative, there are four programs which are designed to help Louisiana commercial fisherman and wholesale/retail seafood dealers recover expenses from the devastation of both storms.

Specific Programs

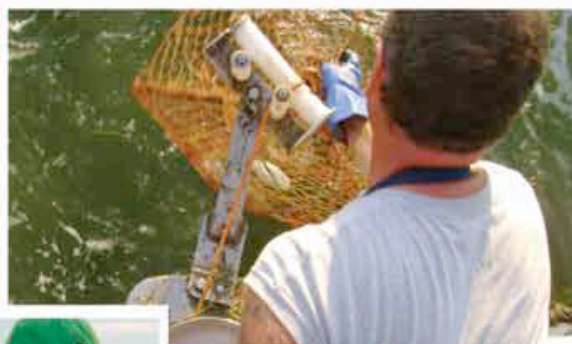

Each program is designed to stimulate economic revitalization by maintaining employment in the commercial fishing industry and providing viable resources to commercial fisherman.

Gear Technology Program

Commercial Fisherman Grant Loan Program

Coastal Communities Fisheries Recovery Program

Wholesale Dealer Broker Program
